

# CENSCERT

17<sup>th</sup> October 2025

Censcert has recently completed the digital revitalisation project for Northern Rivers Rail Ltd (NRRL), in partnership with the ITP325OL1 student-led project team from Southern Cross University. Some key milestones of the project included:

- Meticulously migrating over 4,000 emails from NRRL's legacy email client to a M365 shared mailbox.
- Provisioning a new Microsoft 365 tenancy and rolling out applications in stages to NRRL's staff.
- Uploading a portion of NRRL's overall documentation to the cloud and organising it accordingly.
- Creating a new WordPress website from the ground-up, migrating content from the old website to the new one.

Censcert will fund the Microsoft 365 tenancy and WordPress website until September 2026, subject to annual review. We're proud of supporting an organisation that has a fundamental objective to improve social and economic outcomes in the Northern Rivers by bringing back trains to the region.

If you are an organisation or business looking at digital revitalisation, Censcert are more than happy to assist. Please send us a message at [contact@censcert.com](mailto:contact@censcert.com).
